

Lab: JavaScript for Front-End

Problems for exercises and homework for the "[JavaScript Applications](#)" course @ SoftUni

1. JS Core Module

Create a **single page** that contains a heading and 3 courses:

- **JS Essentials**, **JS Advanced** and **JS Applications**

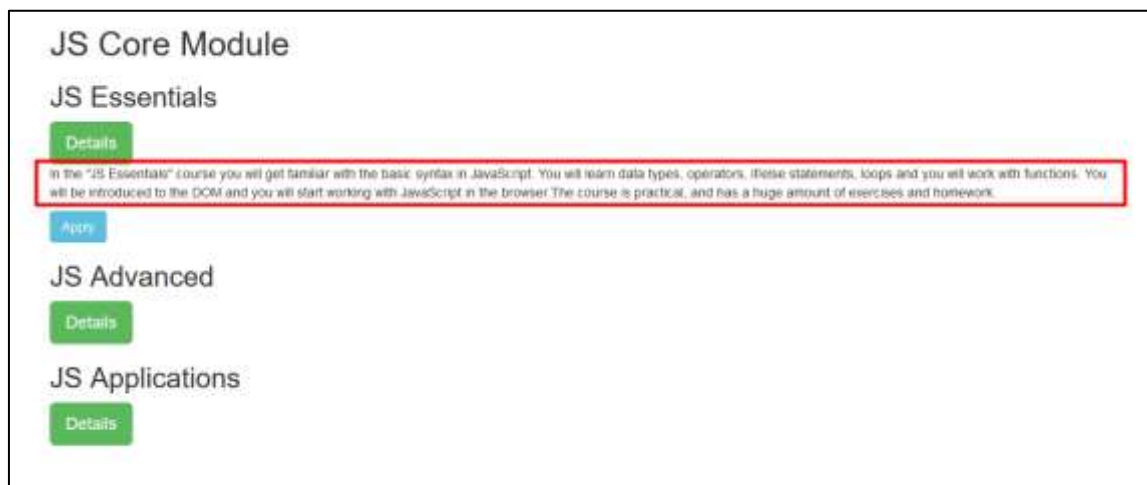

Each of them should have a **[Details]** button. The page should look like this:

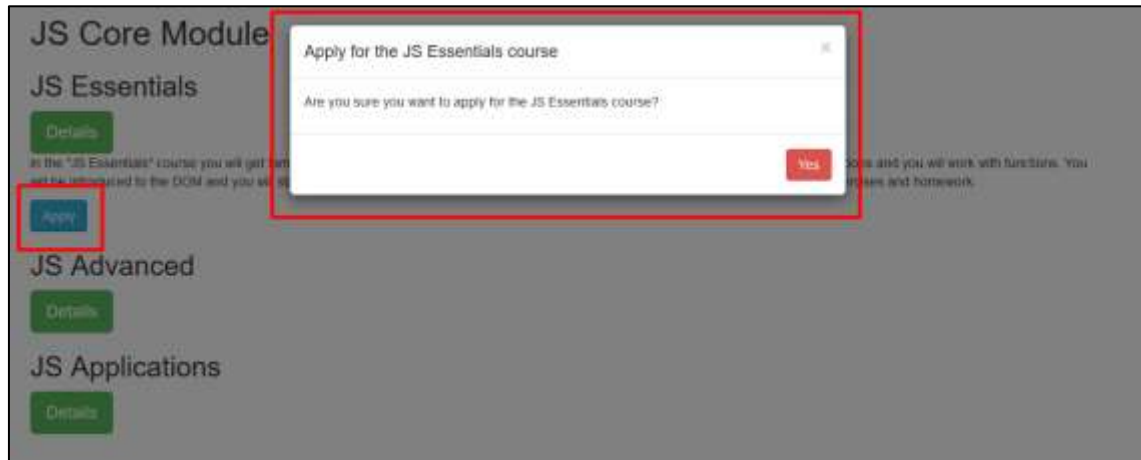

2. Structure

The **[Details]** buttons should **trigger a collapse**. After **clicking** any of them you should see something like in the picture below. You can use information about course's details from:

<https://softuni.bg/modules/60/js-core>

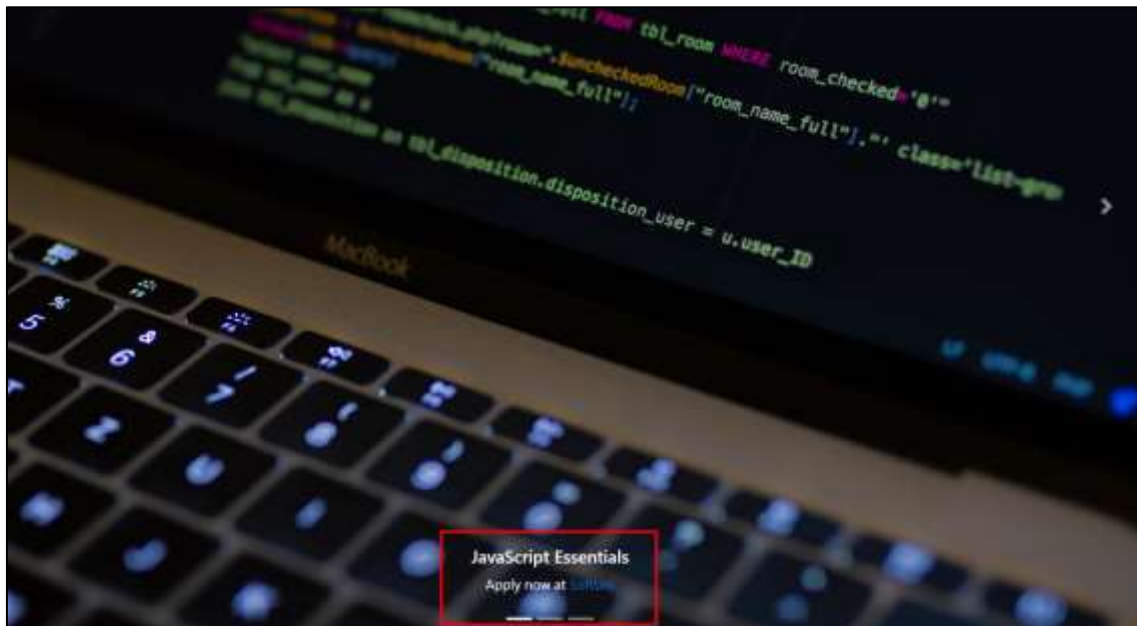

Each **"collapse"** should have a button **[Apply]**. When clicking it a **"modal"** should be displayed. It should look like this:

3. Carousel

At the end of the page create a **carousel** with some **pictures** and **text**. Make **3 pages**.

- The **first slide/page** of the carousel should look like this:

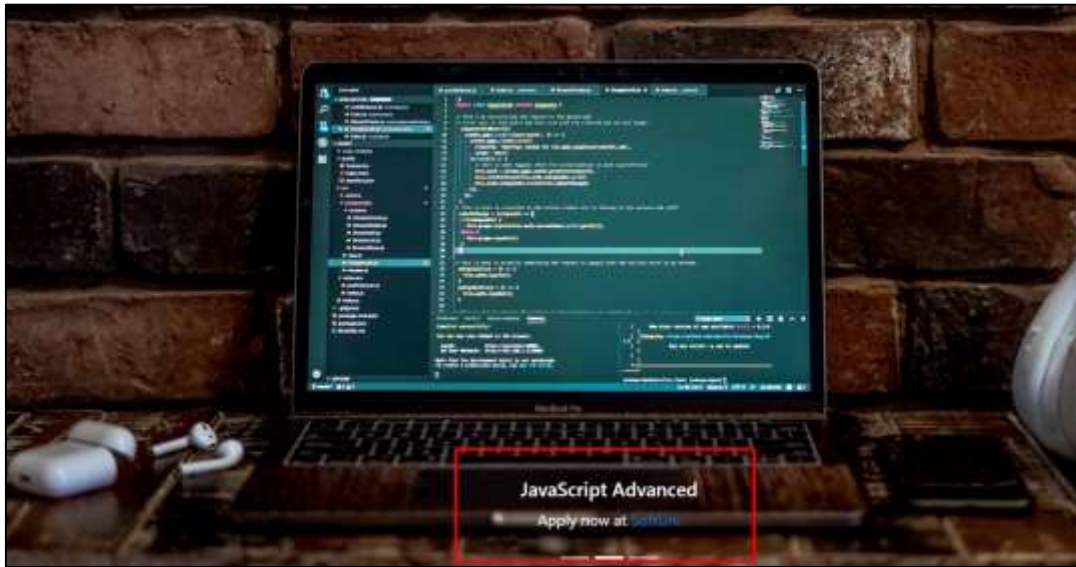

You can use the given **pictures** from the resources and the following **text**:

"JavaScript Essentials"

"Apply now at [SoftUni](#)"

- The **second slide/page** of the carousel should look like this:

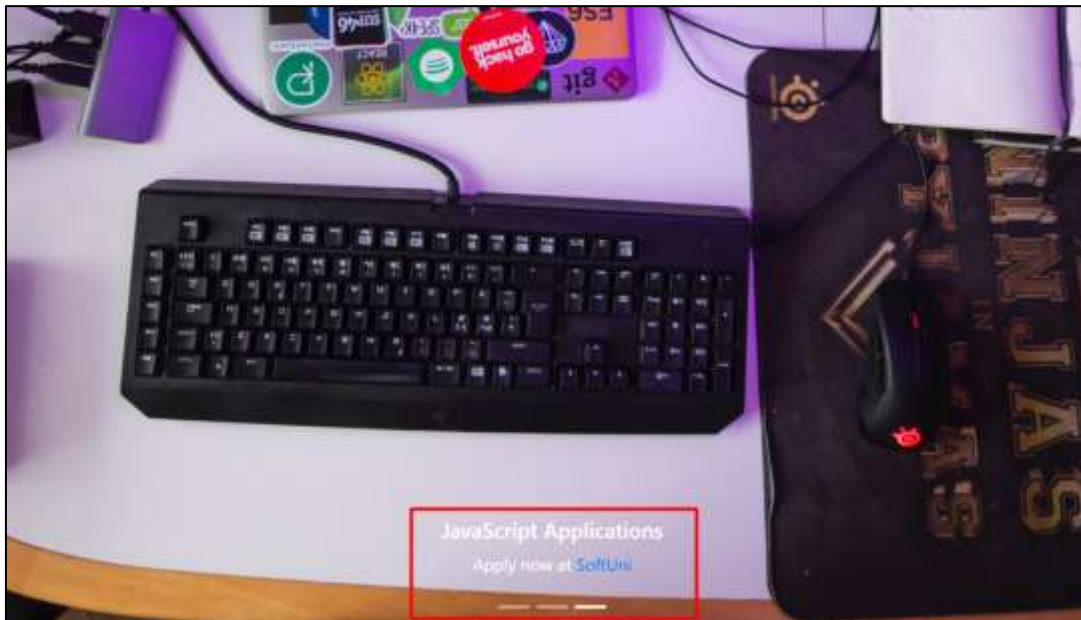

You can use the given **pictures** from the resources and the following **text**:

"JavaScript Advanced"

"Apply now at [SoftUni](#)"

- The **third slide/page** of the carousel should look like this:

You can use the given **pictures** from the resources and the following **text**:

"JavaScript Applications"

"Apply now at [SoftUni](#)"

Hints

- Include the following links and scripts in your document:
 - <https://maxcdn.bootstrapcdn.com/bootstrap/3.4.0/css/bootstrap.min.css>
 - <https://ajax.googleapis.com/ajax/libs/jquery/3.3.1/jquery.min.js>
 - <https://maxcdn.bootstrapcdn.com/bootstrap/3.4.0/js/bootstrap.min.js>
- Use bootstrap classes for the styles
- Use the attributes "**data-toggle**" and "**data-target**" and add "**id**" attributes to your elements
